Notes

Collected here are the public records for One-hundred and one Starfleet Officers.

Naturally a character with access to this would not know someone has this or that rating. However, they may have heard space chatter regarding this or that character as very strong or weak, or known for this or that quality or feat.

Also, this information is really for folks along the lines of Commanding Officers, Department Heads and the Records or Personnel Officers of a ship, Station or Starbase. Thos folk would also have access to the character sheets directly. Thus, a lowly Ensign would not, in-universe, be allowed access to any of this information at all without specific security clearances for specific reason.

You, dear player, are granted those clearances herein to assess your own judgement on what a given character may or may not actually be like.

Perhaps you are friends ~or enemies~ with any number of people in here. You've likely traveled with a few!

Printer tips

28 - 32lb paper is recommended.
20lb paper is a dash thin.
For true durability, try ~48-60lb white cardstock! **Nice!**

Pencil is always recommended as point totals
will change over the course of a character's life.
A small piece of scratch-paper helps keep your sheet
clean as well.
